

U.S. Department of the Interior
United States Geological Survey
Plot derived from
Open-File Report 97-710
Base scanned from U.S. Geological
Survey Monograph 1983 1:500,000
topographic map
Stereographic projection,
California coordinate system, zone 3
This map is a plot derived from
data contained in the digital database
Open-File Report 97-710, "Geology
of southernmost Santa Clara
County, California. A digital database"
A PostScript image of this map is included
in the Open-File Report, but the Open-File
Report does not contain a paper copy of
this map. The Open-File Report consists
of the digital data and a pamphlet
explaining the database and indicating
how to obtain the data from which this map
was prepared as well as the PostScript
image of the map. The pamphlet also
explains how those without computers can
obtain a plot of this map.

This report is preliminary and has not
been reviewed for conformity with U.S.
Geological Survey additional standards
or with the North American Stratigraphic
Code. Any use of trade, product, or
firm names is for descriptive purposes
only and does not imply endorsement by
the U.S. Government.
The database identified as "Geology of
southernmost Santa Clara County, California"
A digital database* has been prepared for
release and publication by the Director of
Geological Surveys. The USGS reserves
the right to revise the data pursuant to
future studies and more information.
It is released on condition that neither
the USGS nor the United States Government
will be held liable for any damages
resulting from its authorized or
unauthorized use.
