

## Digital Review Form

Map name:  
Publication number:

Reviewed by:  
Date completed:

NOTE: This digital review follows scientific review and edits, and assumes that individual features are correct. Overall aspects of the workspace and each coverage are checked for correctness and for match to the README for the publication.

### Check workspace:

Contents prior to review:

Arc 7.0 workspace?:  
    Convert if necessary; check that not mixed 6.x/7.x  
Remove all .e00 files (recreate after modifications)  
Review log file, remove if not useful

Notes:

Projection:

### Check documentation files:

README:        present?  
                  corresponds to current procedures and servers?  
                  corresponds to data files and structure?

Other files:

Metadata:

Notes:

### Check for each coverage:

COVERAGE:

describe:  
edit mask:  
projection:  
features:  
display all features:  
labelerrors:  
tics:  
info tables:  
name 8.3:  
    mods if name changed:

INFO tables:

identify all tables for the coverage:  
check their items  
check properly sorted on #id (list a few records)  
check -ids for reasonableness (calc = #id - 1)  
check attributes for reasonableness

(watch out for IDEDIT problems)

Check other components:

GRIDS (raster base layers, etc.)
