Gray shaded areas are potential debris flow sources from Ellen and Mark, Open-File Report 97-745E

Universal Transverse Mercator projection, Zone 10

This map is a plot derived from data contained in the digital database Open-File Report 97-745, San Francisco Bay Region Landslide Folio. A PostScript image of this map is included in the Open-File Report but the Open-File Report does not contain a paper copy of this map. The Open-File Report consists of the digital data and a pamphlet explaining the database and indicating how to obtain the data from which this map was prepared as well as the PostScript image of the map.

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards or with the North American Stratigraphic Code. Any use of trade, product, or firm names is for descriptive purposes only and does not imply endorsement by the U.S. Government.

This database, identified as "San Francisco Bay Region Landslide Folio" has been approved for release and publication by the Director of the USGS. Although this database has been subjected to rigorous review, and is substantially complete, the USGS reserves the right to revise the data pursuant to further analysis and review.

Furthermore, it is released on condition that neither the USGS nor the United States Government may be held liable for any damages resulting from its authorized or unauthorized use.

SAN FRANCISCO BAY REGION -- 24 Hour Rainfall Threshold
